The National League of Professional Base Ball Clubs.

OFFICE OF THE SECRETARY.

P. E. YOUNG, PRESIDENT.
• O.B.N. 336 • SECRETARY

Washington, D.C. Jan. 26, 1892

Spalding & Bros. & Co.
Gentlemen:

I take great pleasure in bearing testimony to the superior quality of the Spalding League Ball. It has been in exclusive use by the League for the past few years, and has been unanimously adopted for the seasons of '89, '90, '91, and '92. During the past season over two hundred ^{dozen} were used by League Clubs, and not a single complaint was received from Manager or Player as to the quality of the Ball. Each Ball was carefully inspected and not one rejected by reason of its being an imperfect sphere, or inferior in quality or workmanship. I regard it, in all respects, as the perfection of a professional Ball.

Yours truly,
P. E. Young

Spalding's Trade-Marked Bats.

Spalding's Trade-Marked bats were first introduced in 1877, and they have gradually grown in popularity until now they are used almost exclusively by all prominent professional and amateur players.

The demand for different styles and lengths of bats has changed as the batting and pitching rules have changed. Our models have changed so from year to year that bats of the present are very different from those of a few years since. We have adopted an entirely new set of models for 1889, and each crate of our trade-marked bats has four different models and as many different lengths.

All timber used in these bats is allowed to season from one to two years before being turned, and the result is we are enabled to make much lighter and stronger bats than when timber is hastily "kiln-dried," as done by all manufacturers of cheap goods.

Each bat is turned by hand, and when found to answer all the requirements as to shape, size, weight and soundness, the trade-mark is stained on each bat to insure its genuineness. Each and every one of our trade marked bats, after it is completed, is carefully weighed, and the weight in ounces stamped under the trade-mark.

The success and popularity of these bats, which is due to the great care taken in their manufacture, has brought out many cheap imitations, and we would caution the trade to see that the Spalding trade-mark is stamped on each bat. The special attention of professional players is called to our new "Wagon Tongue Brand" No. 3-o Bat.

Spalding's Trade-Marked Catchers' Mask.

The suit for infringement on Catchers' Masks brought against us by F. W. Thayer of Boston was, after a two years' litigation, decided against us in the U. S. District Court, and in settlement for back damages we arranged to protect all of our customers.

Ball players and dealers in Base Ball Goods are cautioned against buying any Catchers' Masks unless made under license from Thayer, and plainly stamped "Manufactured under Thayer's Patent."

At present it would be considered unsafe and even dangerous for a catcher to face the swift underhand throwing of the present day unless protected by a reliable mask. The increased demand for these goods has brought manufacturers into the field who, having no reputation to sustain, have vied with each other to see how *cheaply* they could make a so-called mask, and in consequence have ignored the essential qualification, *strength*. A cheaply made, inferior quality of mask is much worse than no protection at all, for a broken wire, or one that will not stand the force of the ball without caving in, is liable to disfigure a player for life. Our trade-marked masks are made of the very best hard wire, plated to prevent rusting, and well trimmed, and every one is a thorough face protector. We make them in four grades, as described below:

Beware of counterfeits. *None genuine without our trade-mark stamped on each mask.*

No. 3-0 Mask.

No. 2-0 Mask.

No. 3-0. SPALDING'S NEW PATENTED NECK-PROTECTING MASK.

This mask has a peculiar shaped extension at the bottom which affords the same protection to the neck as the mask does to the face. It does not interfere in the slightest degree with the free movement of the head, and is the only mask made which affords perfect protection to a catcher. The entire mask is constructed of the best hardened wire, extra heavy padded with goat hair, and the padding faced with the best imported dogskin, which is impervious to perspiration, and always soft and pliable, each.. \$4 00

No. 2-0. SPALDING'S SPECIAL LEAGUE MASK, used by all leading professional catchers, extra heavy wire, well padded with goat hair, and the padding faced with the best imported dogskin, which is impervious to perspiration, and retains its pliability and softness..... 3 50

AMATEUR MASKS.

Amateur Mask.

To meet the demand for good masks at a low price, we have manufactured a line of amateur masks, which is superior to any mask in the market at the same price. We do not guarantee these masks and believe that our Trade-Marked Masks are worth more than the difference in price

- No. A. AMATEUR MASK, made the same size and general style as the League Mask, but with lighter wire, and faced with leather. (We guarantee this mask to be superior to so-called League or professional masks sold by other manufacturers.....\$1 75

SPALDING'S PATENT CELLULOID UMPIRE INDICATOR,

As shown in the above cut, is intended for the use of BASE BALL UMPIRES and SCORERS to keep tally of the number of Strikes and Balls that may be called. The illustration, which represents the exact size of the Indicator, gives a good idea of its construction and mode of handling. It can be easily operated by the thumb or finger while held in the palm of the hand. It has been highly recommended by all League and Association umpires who have seen it.

CATCHERS' GLOVES.

Spalding's Trade-Marked Catchers' Gloves.

After considerable expense and many experiments we have finally perfected a Catcher's Glove that meets with general favor from professional catchers.

The old style of open backed gloves introduced by us several years ago is still adhered to, but the quality of material and workmanship has been materially improved, until now we are justified in claiming the best line of catchers' gloves in the market. These gloves do not interfere with throwing, can be easily put on and taken off, and no player subject to sore hands should be without a pair. Our new patent seamless palm glove is admittedly the finest glove ever made, and is used by all professional catchers. We make them in ten different grades, as follows:

Price of Full Left-Hand Gloves.

No. 3-o. Spalding's Special League Catchers' Gloves, Patented, both gloves without seams in palm. Full left-hand back stop glove, made of heaviest Indian-tanned or drab buckskin, the very best that can be produced. We employ in this department the most skilful workmen, and use only the very best material, and are prepared to take special orders and make a special last for professional players.

The special attention of Ball players is called to our new genuine KANGAROO BASE BALL SHOE.

The above cut represents this Shoe, which is made from selected genuine Kangaroo skin, all hand sewed, slipper heel, cut low in front, and wide, so they can be laced tight or loose as the player likes.

Each pair is provided with porpoise laces, and the whole Shoe made with reference to comfort and the hard usage required of it.

Our new Hand Forged Shoe Plates—for toe and heel—will be riveted on when required, without additional expense.

Our facilities for manufacturing Base Ball, Cricket, Lawn Tennis, Boating, Bicycle and all other styles of Uniforms for athletic and sporting purposes, are unequalled.

In this department we employ both at Chicago and New York a thoroughly practical and scientific cutter, one who is fully capable of making fine clothing for ordinary wear, but is especially educated in the cutting of Athletic Clothing. We would urge clubs not to make the mistake of intrusting the making of their uniforms to local dealers, whose experience in this kind of work is necessarily limited.

GRAY'S Patent Body Protector.

We now have the sole agency for this most useful device ever invented for the protection of catchers or umpires. This body protector renders it impossible for the catcher to be injured while playing close to the batter. It is made of best rubber and inflated with air, and is very light and pliable, and does not interfere in any way with the movement of the wearer, either in running, stooping or throwing. No catcher should be without one of these protectors. When not in use the air can be let out, and the protector rolled in a very small space.

They are adapted for the spectator of ball games, who scores for his own amusement, as well as the official club scorer, who records the minutest detail. By this system, the art of scoring can be acquired in a single game.

SPALDING'S WAGON TONGUE BATS

Are made of the finest straight grained, well seasoned, second growth Ash Sticks. All timber must be seasoned at least two years, and free from knots or imperfections.

They are pronounced superior to anything, in the way of a bat, ever brought out, both as to quality of timber, model and finish. Special attention is called to the "Oriental Finish" put on these bats which enables the batter to get a firm grip and renders the custom of scraping the bat unnecessary.

They are made from models of the actual bats used by the most skillful batters in the League and

Association.

These

bats were

used last

year by all the

prominent bat-

ters in the leading

Leagues and during

the World's Series

nine-tenths of the bats

on the field were WAGON

TONGUE BRAND.

Beware of cheap imitations,

the only genuine WAGON

TONGUE BAT has our TRADE-

MARK; all others are counterfeits.

These bats are intended especially

for Professional Players, and we urge

Club Managers to place their orders as

early as possible, to insure a supply, as the

quantity made is necessarily limited.
